A background image showing two hands shaking in a firm grip over a wooden desk. On the desk, there is a silver laptop, a white smartphone, and some papers. The lighting is warm and soft, creating a professional yet friendly atmosphere.

## Who are we?

Incepted in the year 2002 as a company that would provide flawless service in the transportation of building materials such as steel, iron, etc., we began by extending a helping hand to the already established Ramesh Iron and Steel Company and Balu Iron and Steel Company. Carrying with us an experience of more than 21 years, we hit the road with a handful of resources. Having provided state of the art services to several clients throughout the southern expanse of our country, currently, we proudly present ourselves as one of the most reputed logistics firms.

With our base in Coimbatore and under the able guardianship of an Founder Mr A.K. Balasubramaniam, who himself has over 43 years of experience up his sleeves, we are successfully thriving as one of the leading fleet operators. Our fame for this position lies in our customized integrated logistics solutions approach towards our loyal customers. With this as our driving force, we worked relentlessly and achieved a turnover of 2200 crores.

### What we were and what we became?

We started our services with just five trucks, and today we have carved a niche in the transport industry. We now own more than 750 vehicles to aid our delivery services efficiently. Our fleet currently includes trailers, mobile cranes, bulkers, and lorries. Around 15 lacs was the annual turnover that we witnessed in the initial days of our service, which has now accelerated with leaps and bounds. Our current turnover has crossed the 300 crores mark.

### OUR USP :

We are proud to be an avid member of the internationally acclaimed company IBM. We also have membership in the MSME. Our overall experience is the essence of our expertise: the 47 plus years of experience of our honourable company Founder.

## VISION

To be able to win customer loyalty on the basis of our top-notch services in delivery and logistics to them. This is turn, will help us realize our ultimate goal of becoming the number one in the field of transportation.

## MISSION

To drive our team towards giving their 100% in making our dreams of becoming the only name for transportation services in the minds of our customers. We will constantly strive to provide the best quality of service with fair pricing and punctual deliveries.
